**APPROVAL OF MINUTES TAKEN AT THE APRIL 19, 2012 MEETING OF THE DIRECTORS OF THE BROOKLYN BRIDGE PARK CORPORATION**

---

**RESOLVED, that the Board of Directors hereby approves the minutes of the Board of Directors meeting held on April 19, 2012.**

Chairman Steel announced the second agenda item: the authorization to enter into a lease transaction with the Toll Brothers/Starwood team and related agreements for the Pier 1 development site. Chairman Steel asked Mr. David Lowin, Vice President of Real Estate of BBP, to present the item.

Mr. Lowin stated that the Selection Committee selected Toll Brothers/Starwood Hotel team as the winner. He presented renderings for the hotel and residential development to the Directors and audience. He then asked to Board to authorize BBP to enter into a lease transaction.

Chairman Steel stated that this lease transaction would put BBP in a strong position to ensure that the maintenance and operations of the Park will be sustainable financially. He added that the addition of the hotel and its amenities, including the restaurant and retail will be beneficial to all of Brooklyn and its visitors. He then asked if there were any questions or comments from Board members. (\*Mr. Conner joined the meeting)

Mr. Benepe stated that the Park was envisioned to have these development sites from the beginning and he is pleased to see the skill and subtlety of the design of the sites, adding that they will be a terrific addition to the Park.

Mr. Offensend complimented the design as well and also noted the importance of economic advantages with respect to the Park. He then asked Mr. Lowin to comment on how the economic package compared to the original projections.

Mr. Lowin stated that the plan for the Pier 1 development site was for it to deliver about \$3 million dollars annually but it will actually be bringing in about \$3.3 million dollars a year. Similarly, the net present value of all revenue streams was projected to be about \$118 million and is now valued at \$120 million.

Mr. Davidson asked Mr. Lowin to talk about the hotel, the size and the amenities associated with it.

Mr. Lowin stated that the hotel will have a lobby facing Furman Street and there will be a large restaurant facing the park with outdoor seating. There will also be a banquet hall and a café, as well as retail spaces along the ground level of the hotel. The hotel will have approximately 200 rooms and will include all hotel type amenities, such as a pool, a spa and an athletic center, as well as a rooftop restaurant.

Mr. Davidson asked who will manage the hotel.

Mr. Lowin answered that it will be managed by 1 Hotel, which is a new Starwood brand.

Ms. Strahle asked for clarification of the separation of public and private spaces.

Mr. Lowin explained that landscaping would provide privacy to residents while enhancing public uses.

Mr. Simmons asked whether the residential units would be condominiums or rentals.

Mr. Lowin stated that the plan is for the units to be condominiums but there is flexibility.

Mr. Raskin asked about the design specifications and whether or not they were final.

Mr. Lowin stated that the building is designed at a conceptual level and it will take much of the next year to get full construction documents.

Mr. Raskin asked about the process for community input.

Mr. Lowin stated that BBP set up a standard process with CAC that would have the developers come to them relatively early in the process to hear feedback, probably towards the end of schematic design, to work towards common goals.

Mr. Raskin asked if the board had any further say with respect to the final design.

Mr. Lowin said that this was the final say.

Mr. Simmons asked about the parking garage, whether it would be for the residents only or the public as well.

Mr. Lowin stated that the garage would be public, with some parking spaces to be sold to residents of the building.

Ms. Witty asked when we expect to open.

Mr. Lowin stated that it would be sometime in the fall of 2015.

Ms. Francois asked what will be breaking ground first, the hotel or residential development.

Mr. Lowin stated they will be built simultaneously.

Mr. Davidson asked about the Design Committee and what their role was and how they weighted into the process.

Mr. Lowin stated that the Design Subcommittee was comprised of representatives from the City Planning Commission, the Public Design Commission, the Landmark Preservation Committee and the Department of Design and Construction. He noted that they reviewed all the initial designs and provided feedback to the Selection Committee.

Mr. Benepe asked for clarification with respect to the Squibb Bridge and whether it was affected by the design of the development site.

Mr. Lowin answered that the Squibb Bridge design had been altered so that the ramp turns south at the landing, rather than north along the building as originally conceived. The change was necessary to accommodate the plan, which now has parking underground, instead of at the first level.

Mr. Gutman asked when the park would see the economic benefits of the development site.

Mr. Lowin answered that upon approval of the board, we will be enjoying the economic benefits within minutes of letting the escrow agent know of the approval and, in addition, within the next year or so when the construction loan is finalized. And, within the next 3 years, we would see the PILOT and mortgage taxes, with rents to commence shortly thereafter.

Chairman Steel asked if there were any additional questions or comments from Board members. There being none, Chairman Steel requested a motion to approve the resolution. Upon the motion being duly made and seconded, the following resolutions were adopted, **Mr. Levin opposed the motion and Mr. Raskin and Ms. Strahle abstained from voting:**

Mr. Pinsky commented that the budget was reviewed in the Audit and Finance Committee.
