Subject: FW: Compliance Opinion - NY BBP Appraisals

Mike,

Thank you for taking the time to come up to New York City to meet with city staff and their appraisers for the Brooklyn Bridge Park conversion. I'm sorry Sandy Burnell, OPRHP's Director of Real Property, and I were only able to make it by phone.

Jack,

After reviewing the changes made by the appraisers and hearing their presentation to Mike and us, I believe all the technical concerns in Ed Stehouwer's memo (attached) have been adequately addressed and the appraisals are in compliance with UASFLA and the LWCF Manual. Since you have approved the conversion, but asked for these technical adjustments for the record, I believe Brooklyn Bridge Park Corporation can now proceed with development of the Empire Stores and Tobacco Warehouse.

Thank you for all the help you, Megan and other NPS staff, in Philadelphia and Washington DC, provided to see this conversion to completion. And, of course, thanks to Ed for ensuring the appraisals are defensible. Two important buildings have been saved from irreversible damage and can be revitalized because of your efforts.

Subject: Fwd: Compliance Opinion - NY BBP Appraisals

Joe,

The e-mail message below from Ed Stehouwer, OVS contains his review comments in regard to the Brooklyn Bridge Park appraisals submitted by New York City. There will be a need for New York City to provide an upgrade to those appraisal and this should be done a.s.a.p. The City should provide the upgraded appraisals to your office for review and NPS should be notified of the State's findings.

If you have any questions, please do not hesitate to contact me.

Jack/Megan:

Attached is the MOA, between NYC and the State, establishing the Brooklyn Bridge Park Development Corporation (Paragraph IV) under the Empire State Development Corporation. Under "I. Purpose" it states the NYS Urban Development Corporation (UDC) is doing business as the Empire State Development Corporation (ESDC).

The UDC was established by Chapter 174 of the Laws of 1964. Section 4 states:

§ 4. New York state urban development corporation. (1) There is hereby created the New York state urban development corporation. The corporation shall be a corporate governmental agency

of the state, constituting a political subdivision and public benefit corporation. Its membership shall consist of nine directors as follows: the superintendent of financial services, the chairman of the New York state science and technology foundation, and seven directors to be appointed by the governor with the advice and consent of the senate. From the seven directors appointed by him, the governor shall designate the chairman of the corporation and two others who shall all serve at the pleasure of the governor. Of the four remaining directors, one of such directors first appointed by the governor after the effective date of this subdivision as amended shall serve for a term ending January first next succeeding his appointment, one of such directors shall serve for a term ending one year from such date, one of such directors shall serve for a term ending two years from such date, and one of such directors shall serve for a term ending three years from such date. Their successors shall serve for terms of four years each. Directors shall continue in office until their successors have been appointed and qualified. In the event of a vacancy occurring in the office of a director by death, resignation or otherwise, the governor shall appoint a successor with the advice and consent of the senate to serve for the balance of the unexpired term. The governor shall appoint the president of the corporation, with the advice and consent of the senate, who shall be the chief executive officer of the corporation and who shall serve at the pleasure of the governor. Such president may be one of the directors appointed by the governor.

I think that makes clear that ESDC, and the park development authority under it, is a State entity and the parkland will be appropriately protected.

I can discuss at your convenience

Subject: public comment summary

Joe,

Based on guidance from our compliance group, we've made a few changes to the public comment document that the City prepared. The changes include:

1. Reduced the introduction section
2. Removed all names of commenters - it is NPS practice to keep comments on NEPA documents anonymous
3. Added a citation to the EA to comment #6
4. Merged comments #14 and #15 (then renumbered the subsequent comments)

Please let me know if there are any concerns with this.

Thanks,
Megan

Joe,

In reading through the Response to Comments on the Environmental Assessment for Brooklyn Bridge Park, page 1 of the document says..."Section B lists the elected officials, organizations, and individuals who provided *substantive* comments on the EA".

Were there additional comments made that were not considered to be substantive? If so, can you provide the total number of comments received, including those considered to substantive and those that were not.

Thanks,
Megan

Good Morning Joe,

Thank you for providing this information that is part of the conversion package for LWCF project #36-01225, Brooklyn Bridge Park. We look forward to receipt of the full conversion package and will make its review a high work priority.

As always, we appreciate the your cooperation and support of the NPS and LWCF program.

Megan,

The full conversion package for 36-01225, with original signatures, is on its way to you. Please let me know at your earliest convenience if there is anything else you need to complete your review.

Our review appraiser check the notes from our conference call that included Goodman-Marks and the Department of Interior's Office of Valuation Services (OVS), so we did not send the final appraisals to OVS for review. We understand the Brooklyn Heights Association, in accordance with the Term Sheet, has submitted their own updated appraisals for consideration, so we await your direction on the Goodman-Marks appraisals.

Thank you and everybody at NPS who has helped us get to this point. We look forward to your response.

Subject: Brooklyn bridge Park EA

As you can see, the website has been updated to include the EA and associated documents.
