

NAME: _____

MY WEATHER OBSERVATIONS

Meteorologists (like the ones you see on TV) study the weather by making predictions about upcoming weather and also recording observations. Go outside or watch the weather report to make your own weather observations.

Today's date is _____

Circle what the weather is like outside:

Sunny

Partly Sunny

Cloudy

Rainy

Snowy

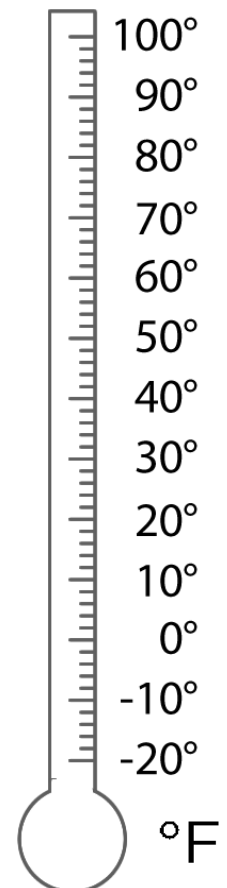

Stormy

The temperature is _____ °F

(Either look at a thermometer or look up the weather report on the news or internet!)

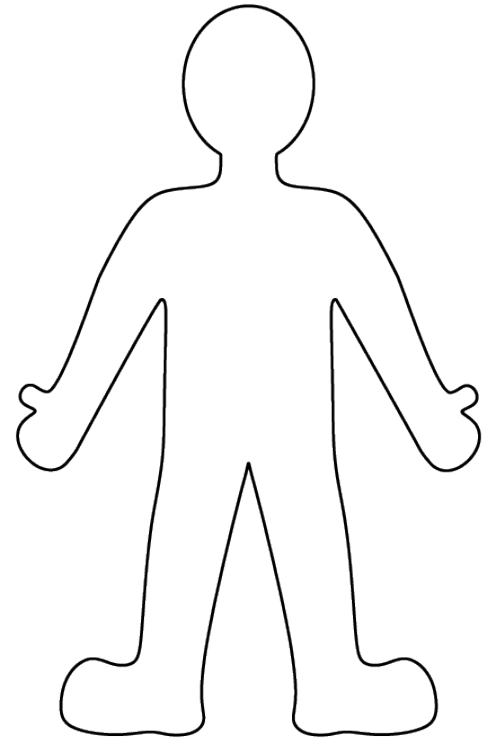

Color in the thermometer to match today's temperature! →

Write a word that describes how it feels outside:

DRESS FOR THE WEATHER!

It is important to know what the temperature and weather will be like so that you can dress comfortably! Based on your weather observations, draw the clothing and accessories you should wear outside!

SIGNS OF WIND

Do you see any.....

- Leaves or plants swaying
- Flags blowing
- Birds gliding

(giving their wings a rest, and letting the wind push them)

CLOUD HUNTING

Check off the types of clouds you see in the sky today!
