

RECYCLED MAGAZINE MOSAIC

Create your own recycled magazine mosaic. Use our stencil shapes (or draw your own) and fill in with patches of old magazine or any other colored paper around your house that's meant to be recycled.

MATERIALS YOU'LL NEED:

- Stencil cutouts (attached)
- Recycled paper material (magazine, origami paper, construction paper, newspaper, etc.)
- Glue
- Scissors

BEGIN! FOLLOW THESE STEPS:

STEP 1

Cut small squares out of the recycled magazines (or other paper) you are using.

STEP 2

Pick one of the shapes on the attached page or draw your own.

STEP 3

Add glue to the back of one of the squares and place within the shape. Continue this process until the entire shape is filled in with colored squares.

STEP 4

Continue gluing and adding squares until the entire shape is filled in with colored squares. Congratulations — your mosaic is complete!
